

Sullivan Renaissance

a decade of grassroots transformation

Through the creation of this publication, Sullivan Renaissance is celebrating ten years of beautification efforts in Sullivan County, New York, as told through the vision and voices of area residents who made it happen.

The publication chronicles only a fraction of the individual challenges, struggles, accomplishments and heart-warming, inspiring stories that have been the fabric of Sullivan Renaissance. Through this publication, it is hoped that others will be enticed to support the mission – to beautify Sullivan County while building a sense of pride and community spirit.

For some, the magazine will be a guide for replicating a version of the Sullivan Renaissance program elsewhere. For others, it is a glimpse of where the program has been and where it is going. For everyone, it's an invitation to share in the sense of pride that is taken in the achievements of friends and neighbors.

Sullivan County is an extraordinary and unique county in the Catskill region of New York State that affords fresh air, clean water, stunning vistas and abundant nature . . . a special place with concerned and caring people. It is important that everyone be good stewards of these treasured gifts, and one will find that there are many who are doing just that... giving generously of their time, resources and talent to reclaim, restore and rebuild their home.
