SULLIVAN RENAISSANCE

Sullivan Renaissance is a beautification and community development initiative of the Gerry Foundation. We believe that beautification builds community pride; and that partnerships and grassroots volunteerism build beautiful, active communities. Through a competitive grant process, Sullivan Renaissance offers funding, technical assistance and other resources in support of this mission.

Since 2001, thousands of individuals have championed hundreds of projects in all 15 towns and 6 villages of Sullivan County. What began as a gesture to spruce up the county and bring people together through the act of planting flowers, has become a grassroots movement. This movement unites efforts of volunteers, with investment by businesses, changes in policy by municipalities, and an all-around feeling that we can be, and are, a place people love to call home.

Join the movement at SullivanRenaissance.org or call 845-295-2445.
